Pakeeru Basha Mekala

DevOps Engineer · AWS, GCP, Azure · Kubernetes · GitOps

m.pakeerubasha@gmail.com | https://www.linkedin.com/in/pakeeru-basha | https://github.com/pakeerubasha-mekala | Hyderabad, Telangana, India

SUMMARY

DevOps engineer building and running cloud platforms across AWS, GCP and Azure, with Kubernetes, GitOps and infrastructure as code. Currently a Senior DevOps Consultant at Equal Experts, after years of CI/CD, observability and platform engineering at Tata Consultancy Services in India and the UK.

EXPERIENCE

Senior DevOps Consultant, Equal Experts, Bengaluru, Karnataka, India · Hybrid — Mar 2025 - Present

- Platform and infrastructure work for an HR SaaS platform, across AWS and GCP.

DevOps Engineer, Tata Consultancy Services — Nov 2016 - Feb 2025

Project: Waitrose, Bracknell, England, United Kingdom — Feb 2021 - Feb 2025

- Led the migration of legacy infrastructure to the cloud and built a self-service portal for provisioning and de-provisioning resources.
- Ran highly available EKS clusters with Helm releases and ArgoCD GitOps deployments.
- Provisioned infrastructure with CloudFormation, Terraform and Crossplane; managed configuration with Ansible, including custom modules and plugins.
- Built Groovy DSL CI/CD pipelines with blue/green and canary deployments and early quality checks; managed Jenkins, Nexus, SonarQube, Contrast, Keycloak and the Elastic Stack.
- Instrumented 150+ microservices (CloudWatch, Grafana, Prometheus, PagerDuty) and built cloud cost optimisation metrics.

Project: OmniStore, Bengaluru, Karnataka, India — Nov 2016 - Jan 2021

- Led CI/CD with Jenkins and shell scripting; set up artifact repositories and quality testing tools.
- Implemented zero-downtime deployments on AWS ECS and Azure Kubernetes Service, and ran Kubernetes on on-prem VMs, including cluster upgrades.
- Containerised applications with Docker and integrated SAST, DAST and open-source scanning into CI/CD.
- Part of the 24/7 on-call team: incident management, root cause analysis and permanent fixes; supported global development teams and prepared knowledge-transition documents.

TECHNICAL SKILLS

Cloud: AWS (EKS, ECS), GCP, Azure (AKS)
Infrastructure as Code: Terraform, CloudFormation, Crossplane, Ansible
Containers & Orchestration: Docker, Kubernetes, Helm, ArgoCD (GitOps)
CI/CD: Jenkins (Groovy DSL), GitHub Actions, Octopus Deploy, Blue/Green & Canary, SonarQube, Nexus
Observability: Prometheus, Grafana, CloudWatch, ELK, PagerDuty

EDUCATION

Bachelor of Technology (B.Tech.), Electronic and Communications Engineering, G. Pulla Reddy Engineering College — 2013 - 2016
